PROFESSIONAL SUMMARY

React Native Developer with 3+ years of experience building high performance mobile apps using React Native and Kotlin. I am skilled in API integration, offline storage, CCTV modules, analytics dashboards, and secure authentication systems.

SKILLS

- React Native, Kotlin, JavaScript, TypeScript
- Redux, Axios, Realm DB, SQLite, Firebase
- Android Studio, Xcode, VS Code
- REST APIs, Push Notifications, Google Maps
- Git, GitHub, Bitbucket

WORK EXPERIENCE

Junior Software Engineer – React Native Developer

Varsity Education Management Pvt. Ltd.

Dec 2022 – Present

PROJECTS

1. Sri Chaitanya Parent Connect App

- Developed Fee Summary, Fee Receipts, Student Attendance, Exam Marks, Feedback, Outing Requests, and Communication modules.
- Integrated Firebase notifications, JWT authentication, auto-login, and secure session handling.
- Implemented performance charts and offline caching with Realm DB.

2. SC Employee App

- Built Course Track, Faculty Tracking, Section Incharge, Attendance, Hygiene Cleaning, Geo location capture, and Camera modules.
- Added student details include the modules like Fees, Marks, Parent Profile, Address, Summary, and Attendance.
- Developed Employee Dashboard and reporting modules.

3. MIS App

- Created dashboards for management to track students, employees, fee collection, academics, and attendance.
- Integrated CCTV streaming for all campuses using third party APIs.
- Added analytics, KPIs, filtering, and offline caching using Realm DB.

4. Varsity BBE App

- Developed dashboards for Business, Branch & Education analytics for sales and accounts teams.
- Added home dashboard, bank details, account summaries, entity data, and user insights.
- Built fee views, CCTV modules, and secure authentication features.

EDUCATION

BTech in Mechanical Engineering – JNTUK (Eswar College of Engineering), 2021
